A unique solution for biological and related research comprising three core elements:

**Format**
- Full Text, Illustrata™
- Deep Indexing and Abstract & Index (A&I)

**Coverage**
- 1982-current

**Total Sources Covered**
- Over 35 million A&I records
- Over 6.4 million indexed tables and figures
- Over 700 full-text titles
Full Text

Over 700 full-text titles from around the world are included: Scholarly journals, trade and industry journals, reports, conference proceedings and newswires.

ProQuest Illustrata™
Deep Indexed Images

Over 5.5 million tables & figures from 860,000 published works drawn from 1,670 journals, enhancing researchers’ ability to retrieve the most relevant literature – an article featuring a relevant table matching your search terms is very likely to be extremely relevant to your search.

Discipline Oriented Bibliographic A&I

The Biological Sciences database offers abstracts and citations to a wide range of research in biomedicine, biotechnology, zoology and ecology, and some aspects of agriculture and veterinary science. Supporting over 20 areas of expertise, the database provides access to literature from over 8,000 serials, plus conference proceedings, technical reports, monographs and selected books and patents.
