SEARCH FIELDS

Field Name	Field Code	Example	Description and Notes
Accession number	AN	an(43275016)	A unique document identification number assigned by the information provider.
All fields	ALL	all("valeo AND "share price")	Searches all fields <i>except</i> the full text in full-text files. Use proximity and/or Boolean operators to narrow search results.
All fields + text	--	"airport growth" AND india	Searches all fields including the full text in full-text files.
Author ¹	AU	au(barrier, philippe) au(jpmorgan)	Searches both individual author names and corporate contributors. The latter are also separately searchable with the CA field code. These are displayed separately in the Author and Corporate/institutional author fields.
First author	FAU	fau(Reitman, Stephen)	First name listed in Author field.
Classification	CC	cc(531010) cc("automobiles & auto parts")	Thomson Reuters' own business classification codes to define the industries/sectors covered. Both codes and textual descriptions are searchable. A list of classification codes is available below. You can also use SU to search the textual component of the classifications
Company / organization ¹	CO, ORG	co.exact("Valeo SA")	See also Ticker symbol (TKS)
Corporate / institutional author ¹	CA	ca("societe generale")	The name of the contributing organization which produced the report.
Document status	DSTAT	dstat(new) dstat(revised)	Reports can be updated multiple times – sometimes within a few days of the original report being loaded, and sometimes many months later. If the value is 'New', it indicates that the report hasn't been updated by the supplier. Refer also to Updates (UD) to see when the report was last loaded onto the database as a result of being resupplied to ProQuest Dialog.
Document text	TX	tx((france OR french) N/2 forecast* N/2 growth N/2 2013)	The underlying text of a report is searchable, but it can only be viewed by linking-out to the original reports held externally on Thomson Reuters' servers.

Field Name	Field Code	Example	Description and Notes
Document title	TI	ti("valeo corporate news")	
Document type	RTYPE	rtype("table of contents") rtype("citation")	Reports are available either as 'citations only' – in which case you can only view and purchase the complete report – or with a table of contents. For records with a table of contents you can usually view individual pages, though there are some reports where only option is to view the complete report.
First available	FAV	fav(20131014)	Indicates the first time a document was loaded onto PQD. It will not change however many times the record is subsequently reloaded - as long as the accession number does not change. See also Updates (UD).
From database ²	FDB	"CO2 emission reduc*" AND fdb(10000221)	Used in multi-file searches to isolate records from the specified database. 10000221 is the FDB code for this database.
Language	LA	la(english)	There are reports in the database in many languages – including some using non-roman script – use the LA field code to explicitly include/exclude Chinese, Korean, Arabic, etc. reports. Or use the Language results filter after you've run your search to remove unwanted languages.
Location ¹	LOC	loc("western europe")	Generally used for country of coverage. Sometimes continents or regions (eg. 'East Asia') are included.
Page count	PCT	pct(6) pct(>=1000) pct(1000-2000)	The length of the report in pages. Range searching is supported.
Publication date	PD	pd(20121130) pd(>=20130101) pd(20130101-20130630)	Date range searching is supported.
Publication year	YR	yr(2012) yr(2012-2014) yr(<2009)	Date range searching is supported.
Report type	PSTYPE	pstype("company report") pstype("industry report")	Three report types are available: Company, Industry, and Topical.

Field Name	Field Code	Example	Description and Notes
		pstype("topical report")	Topical reports will be about subjects like national inflation forecasts, etc. Note that many reports specifically about a single company are designated as 'Topical Reports'.
Subject ¹	SU	su(equity) su("economic forecasts") su(merck)	SU retrieves data from multiple fields including <i>Subject</i> , <i>Classification</i> , <i>Company/organization</i> , and <i>Location</i> .
Main subject ¹	SUBT	subt("initial public offerings")	The Subject display field contains terms relating to nature of the report – eg. 'annual income', 'forecasts', etc. To search by industry/sectors covered, use <i>Classification</i>
Table of contents	TOC	toc("shareholding structure")	TOC allows you to search the entries in the table of contents. Refer below to special section on tables of contents.
Ticker symbol	TKS	tk("mrk.n")	Ticker symbols are displayed in the <i>Company/organization</i> field.
Updates	UD	ud(20131014) ud(2013-10-14) ud(>=20130101) ud(20131014-20131206)	The date(s) the record as loaded to ProQuest as a result of an update provided by the supplier. The first update date listed usually equates to the First available (FAV) date. Date range searching is supported.

¹ A Lookup/Browse feature is available for this field in the Advanced Search dropdown or in Browse Fields.

² Click the "Field codes" hyperlink at the top right of the Advanced Search page. Click "Search syntax and field codes", then click on "FDB command" to get a list of database names and codes that can be searched with FDB.

SEARCH TOOLS

Field codes are used to search document fields, as shown in the sample document. Field codes may be used in searches entered on the **Basic Search**, **Advanced Search**, and **Command Line** search pages. **Limit options**, **Look up lists**, and **"Narrow results by" filters** tools are available for searching. Some data can be searched using more than one tool.

LIMIT OPTIONS

Limit options are quick and easy ways of searching certain common concepts. A check box is available for records with:

Table of contents

Short lists of choices are available for:

Report type and Language

Date limiters are available in which you can select single dates or ranges for date of **publication date** and date **updated** (ie. The date the document was loaded or updated on ProQuest).

BROWSE FIELDS

You can browse the contents of certain fields by using Look Up lists. These are particularly useful to validate spellings or the presence of specific data. Terms found in the course of browsing may be selected and automatically added to the Advanced Search form. Look Up lists are available in the fields drop-down and in the search options for:

Company/organization, Corporate/institutional author, Location, and Subject,

and additionally in the fields drop-down only for:

Author

Refer also to *CLASSIFICATION*, below, for a list of industry/sector codes. A hierarchical list of these codes is not yet available as a Browse Index.

“NARROW RESULTS BY” FILTERS

When results of a search are presented, the results display is accompanied by a list of “Narrow results by” options shown on the right-hand panel. Click on any of these options and you will see a ranked list showing the most frequently occurring terms in your results. Click on the term to apply it to (“narrow”) your search results. Narrow results by filters in Thomson Reuters Embargoed Research include:

Author, Classification, Company/organization, Corporate/institutional author, Document type, Language, Location, Report type, Subject, and Publication date

To retrieve a **list of current contributors** to the database, search for all reports loaded in the last year (you can define the period you want to cover) – eg. YR(>2014), and then on the List of Results page, open the Corporate/institutional author filter and then choose to export to Excel the list of values.

TABLES OF CONTENTS

Generally, if there is a table of contents individual pages of the original report can be viewed on their own. This will be obvious as the entries in the table of contents will be individually hyper-linkable. Additionally, all reports can be selected for viewing in their entirety. Click the ‘Link to PDF’ icon at the top right-hand corner of the Citation and Brief citation pages to download the full report.

Note that there are some reports that are VERY long (over 2000 pages); the longer the report, the longer it will take to download.

CLASSIFICATION

The hierarchical list of industries/sectors covered in the database is not yet available as a browse field within PQD. Use the following table to find appropriate terms to use for most effective retrieval.

To search for a specific sector – eg. 'Renewable Fuels', search as **CC(50104020)**.

To search for a broader sector, add an asterisk to ensure retrieval of all reports classified to both the broad and narrower sectors – eg. **CC(50*)** will retrieval ALL reports classified to any of the Energy-related codes

Terms & Conditions

In addition to the [Dialog Standard Terms & Conditions](#), the following provider terms and conditions also apply.

Copyright © 1999 – 2015, Thomson Reuters. All rights reserved. Thomson Reuters (Markets) LLC ("Thomson Reuters") and its affiliates are referred to below as "Thomson Reuters".

Thomson Reuters or its third party providers own and retain all rights, title and interest, including but not limited to copyright, trademarks, patents, database rights, trade secrets, know-how, and all other intellectual property rights or forms of protection of similar nature or having equivalent effect, anywhere in the world, in the Thomson Reuters Embargoed Research Collection (the "Service") and user is not granted any proprietary interest therein or thereto. The Service constitutes confidential and trade secrets of Thomson Reuters or its third party providers. Display, performance, reproduction, distribution of, or creation of derivative works or improvements from Service in any form or manner is expressly prohibited, except to the extent expressly permitted hereunder, or otherwise, with the prior written permission of Thomson Reuters.

User may use the Service for internal purposes only. User may copy, paste and distribute internally only an insubstantial amount of the data contained in the Service provided that: (a) the distribution is incidental to or supports user's business purpose, (b) the data is not distributed by user in connection with information vending or commercial publishing (in any manner or format whatsoever), not reproduced through the press or mass media or on the Internet, and (c) where practicable, clearly identifies Thomson Reuters or its third party providers as the source of the data. Data will be considered in "insubstantial amount" if such amount (i) has no independent commercial value, (ii) could not be used by the recipient as a substitute for any product or service (including any download service) provided by Thomson Reuters or a substantial part of it.

To the extent that the Service contains any third party data referred to in the General Restrictions/Notices page set forth on <http://thomsonreuters.com/site/3ptyterms>, the terms set forth on such General Restrictions/Notices page shall apply to user.

User acknowledges that access to certain elements of the Service may cease or may be made subject to certain conditions by Thomson Reuters or upon the instructions of the third party provider of those elements. Upon termination or

expiration of this user license, all rights granted hereunder shall immediately terminate and user shall cease to use the Service and delete or destroy all copies thereof in its possession or control.

NEITHER THOMSON REUTERS NOR ITS THIRD PARTY PROVIDERS WARRANT THAT THE PROVISION OF THE SERVICE WILL BE UNINTERRUPTED, ERROR FREE, TIMELY, COMPLETE OR ACCURATE, NOR DO THEY MAKE ANY WARRANTIES AS TO THE RESULTS TO BE OBTAINED FROM USE OF THE SAME. USE OF THE SERVICE AND RELIANCE THEREON IS AT USER'S SOLE RISK. NEITHER THOMSON REUTERS OR ITS THIRD PARTY PROVIDERS WILL IN ANY WAY BE LIABLE TO USER OR ANY OTHER ENTITY OR PERSON FOR THEIR INABILITY TO USE THE SERVICE, OR FOR ANY INACCURACIES, ERRORS, OMISSIONS, DELAYS, COMPUTER VIRUS OR OTHER INFIRMITY OR CORRUPTION, DAMAGES, CLAIMS, LIABILITIES OR LOSSES, REGARDLESS OF CAUSE, IN OR ARISING FROM THE USE OF THE SERVICE. THE SERVICE IS PROVIDED ON AN "AS IS" BASIS AND WITHOUT WARRANTY OF ANY KIND.
