OVERVIEW

The Institute for U.S. and Canadian Studies, established in Moscow in 1970 as part of the Soviet Academy of Sciences, was the USSR’s main research institute for American studies. The scholars of this influential think tank produced several perspectives on the United States and, to a lesser extent, Canada. *SShA: Ekonomika, Politika, Ideologiia* is the Institute’s monthly publication dedicated to the detailed analysis of American foreign policy, internal political and economic affairs, and ideology. The micropublication *USA: Economics, Politics, Ideology* provides a unique look at Soviet perceptions of the United States and Canada over the past two decades.

The journal’s contributors are some of the Soviet Union’s most influential leaders in research and government: Arbatov, Ivanian, Andropov, Popov, Nikiforov, Kremeniuk, and Davydov, to name a few.

NOTE FROM THE PUBLISHER

The editors of University Publications of America (UPA) wish to thank Dr. Edward A. Ivanian, head of the informatics library of the Institute of U.S.A. and Canada for suggesting this micropublishing project, and to Dr. Victor A. Kremenyuk, deputy director of the institute, for making the volumes available to us for filming.

This guide consists of a title index and an author index. All signed articles, editorials, and speeches have been indexed. The brief “Notes and Comments” section, appearing in most issues, has not been indexed, nor have book reviews or serialized translations of English works into Russian. Each monthly issue of the journal contains an English language table of contents, found at the end of the appropriate fiche, and the December issue of each year contains a cumulative index, in Russian, for the year’s contents.

This guide reflects what appears on the microfiche including inconsistencies in punctuation and grammar.
**ABBREVIATIONS**

The following abbreviations occur throughout this guide and are provided here for the convenience of the researcher.
