### Table 3: Success Criteria, Level AAA

Notes: This Accessibility Conformance Report covers the degree of Level A and Level AA conformance for Web Content Accessibility Guidelines (WCAG) 2.1, as well as Section 508 standards as published in 2017 and corrected in 2018. Tables and other details in this section have been removed.

## Revised Section 508 Report

Notes:

### Chapter 3: [Functional Performance Criteria \(FPC\)](#)

Notes:

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Partially Supports	HeritageQuest is coded to work with screen readers and other assistive technologies. Exceptions: <ul style="list-style-type: none"><li>• Not all images included as or within content have corresponding alternate text defined.</li><li>• Some full-text records and embedded images are only available as scanned images.</li></ul>

Criteria	Conformance Level	Remarks and Explanations
302.2 With Limited Vision	Partially Supports	<p>HeritageQuest is coded to work with screen readers and other assistive technologies. Text size can be adjusted through standard browser functionality. Browser settings and extensions can allow the user to view pages in high contrast mode.</p> <p>Exceptions:</p> <ul style="list-style-type: none"> <li>• Not all images included as or in content have corresponding alternate text defined.</li> <li>• Some full text records and embedded images are only available as scanned images.</li> </ul> <p>Note: In many cases, there is too much text and handwritten information on the image of a primary source document to fully support alternate text. For example, original U.S. Federal Census schedules.</p>
302.3 Without Perception of Color	Supports	<p>Color is used to enhance usability by drawing attention to certain areas of the screen. Color is never the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element. If needed, the product's CSS can be overridden using the browser.</p>
302.4 Without Hearing	Not Applicable	<p>Hearing is not required to use or explore HeritageQuest content. HeritageQuest does not provide any audio or video content, playback, or feedback.</p>
302.5 With Limited Hearing	Not Applicable	<p>Hearing is not required to use or explore HeritageQuest content. HeritageQuest does not provide any audio or video content, playback, or feedback.</p>

Criteria	Conformance Level	Remarks and Explanations
302.6 Without Speech	Not Applicable	User speech is not required to use HeritageQuest.
302.7 With Limited Manipulation	Supports	<p>Screen elements are designed to be accessible for users with poor motor control (for example, clickable areas are suitably sized and spaced). The user can tab through interactive form elements, such as links, buttons, and inputs.</p> <p>Exception: The product would benefit from the addition of Skip links, allowing a user to skip past common navigation and other elements that display at the top of pages. However, the current application page structure doesn't lend itself well to Skip navigation implementation.</p>
302.8 With Limited Reach and Strength	Supports	<p>At least one mode of operation that is operable with limited reach and limited strength.</p> <p>For example:</p> <ul style="list-style-type: none"> <li>• The product can be used using keyboard only.</li> <li>• All interactive elements can receive keyboard focus.</li> <li>• The focus order of form fields is presented in a logical order.</li> </ul>
302.9 With Limited Language, Cognitive, and Learning Abilities	Supports	<p>The product provides features that make its use by individuals with limited cognitive, language, and learning abilities simpler and easier.</p> <p>For example:</p> <ul style="list-style-type: none"> <li>• Form fields are presented in a standard, consistent way across the product.</li> <li>• Form elements are properly labeled.</li> </ul>
